CHAPTER V

REHOBOTH TAX LISTS

In this chapter, which is perhaps one of the most valuable in this Rehoboth series, will be found three heretofore unknown Rehoboth tax lists for the years 1759, 1765, and 1769. These lists appear in none of the original Rehoboth town records and are here published for the first time.

In the early years of the town, and continuing up to the period of King Philip's War, the tax lists are found entered in the town meeting books. The constable was the tax collector and in the early years when the town was small one constable could collect the taxes for the entire town. By 1675 the town had so increased in size that it was necessary to have a second constable, after which each collected half of the town tax. By the middle of the eighteenth century Rehoboth had six constables, each collecting one-sixth of the town tax in districts which were numbered according to the order in which constables were appointed. In 1769 these six constables, in their six districts, collected a total tax of £214: 09: 02. Ten years later, in 1779, the number of constables was increased to seven who collected a total tax of £2,338: 00: 03. The substantial ten-year tax increase was principally due to the inflated money of this period.

As the inhabitants increased in numbers in the town, the selectmen, acting as a board of assessors, made out the individual tax lists for the districts and turned these over to the constables for collection, and the constables turned the money into the town treasury. The total money to be collected for the district was the important thing, not the names of the men who paid it. When the full amount of money represented by the list was collected the list was then of no particular importance. Each constable was supposed to return his list to the town clerk. Sometimes he returned it, but often did not. When the list was returned the town clerk folded it into a size about two by six or seven inches, noted the number of the list on the back with the district and year and filed it away. To him it was finished business and of no further interest. These lists were packed away and later were lost or destroyed, for their value, except historically, was ended. Some towns have a few of these original tax lists, but in most towns they are irretrievably lost.

It sometimes seems to the writer that the good Lord often makes a special effort to aid the really sincere original source material researcher by helping him in various inexplicable ways, so many instances of which could be cited. In an old farmhouse in Rehoboth, on a Saturday afternoon, 20 Apr. 1946, the writer was shown a little wooden chest brought down from the attic where it had been for upwards of three-quarters of a century. It was full of old papers

which the writer was told he might have to do with as he pleased, but that he could not have the wooden chest.

Among those papers were more than one hundred and ten original Rehoboth tax lists dating from 1754 to 1822, together with many duplicates. In all this mass of papers there were complete returns for only the years 1759, 1761, 1765, 1766, 1768, and 1769. The years 1760, 1762, 1763, and 1764 each have one district missing; 1758 has two districts missing; 1754 has three districts missing; and 1755 has four districts missing. The year 1781 has three districts missing out of seven.

Out of these documents the lists for the years 1759, 1765, and 1769 have been selected as the best to print, and these will be found in the following pages.

As the same six districts are shown in each of the tax lists for the years 1759, 1765, and 1769, we have before us three records of all the Rehoboth taxpayers by districts for a period of eleven years, divided into intervals of seven and four years, a record for this third-quarter period of the eighteenth century the counterpart of which is found in print for no other town in New England. This is the period of the sixth and seventh generations from the original settler and these tax lists are of great value to the genealogist, for this particular period is a difficult one for research in Rehoboth and these tax lists give us just the anchor that has heretofore been so greatly needed.

To appreciate the full value of these tax lists we must understand how they were made up. In each district, as is apparent by a superficial inspection, the property owners were listed in order on streets in each section, and this order is maintained throughout the years, so that from the known location of neighbors on either side it is possible to find the original location of a particular piece of property. Again, considerable genealogical knowledge, obtainable in no other way, can be gained by noting that the name of the head of a family appearing in one tax list is succeeded by a widow in the second and perhaps by a son in the third. In many cases this is the only proof positive of a hitherto unsolved genealogical problem. Military titles are often discovered, or confirmed, as in the case of Robert Abell who is listed as an ensign in 1759; as plain Robert Abell in 1765, and as a captain in 1769.

Unfortunately, in putting these tax lists for the years 1759, 1765, and 1769 into type many of the names are not in the same order as on the original lists. The names on the first 1759 tax list are in correct order, the other five lists are not. The following corrections take care of the year 1759. The names follow the same sequence in the other years.

Second List—John Ellis to John Barker and Widow Sarah Humphrey to Dr. John Wheeler should follow widow Sarah Corbin; Samuel Luther to Eleizer Smith should follow Dr. John Wheeler.

Third List—Oliver Carpenter to William Healy should follow Andrew Carpenter; Ephraim Hunt, Jr., to Ebenezer Jordan should follow William Healy; Ichabod Ide to Ebenezer Peck, Jr., should

follow Ebenezer Jordan; widow Hannah Peck to Timothy Titus should follow Ebenezer Peck, Jr.

Fourth List—Elcony Bullock to William Goff should follow John Bullock; Dea. Ephraim Hix to Benjamin Sanders should follow William Goff; Peleg Martin to William Salisbury should follow Benjamin Sanders; Samuel Ingalls to George Jenkins should follow William Salisbury; John Kilton to Comfort Pierce should follow George Jenkins; and John Mason and Nicholas Thomas should follow Capt. Mial Pierce.

Fifth List—Hugh Bullock to Caleb Goff should follow Uriel Bowen; Benjamin Hix to James Redway, Jr., should follow Caleb Goff.

Sixth List—Jonathan Chaffee to John Lyon, Jr., should follow Thomas Chaffee; and Samuel Mason to Willson Torry should follow John Lyon, Jr.

REHOBOTH TAX LISTS 1759

At a Rehoboth town meeting held at the meeting house in the west precinct of the town on 26 Mar. 1759, Capt. Timothy Walker, Silvanus Martin, Samuel Bullock, John Cooper, and Capt. Nathaniel Bliss were elected select men. Nehemiah Barrows, elected first constable, informed the meeting that he had hired Joshua Tower to serve in his place, which substitution was accepted. Abiezar Peck was elected second constable; Thomas Read, third; Hezekiah Martin, fourth; David Perry, fifth; and John Bullock, sixth.

At a town meeting held 26 Mar. 1759 and continued by adjournment to 21 May 1759, Abiezar Peck, who had been chosen second constable, was dismissed, "he being enlisted into the King's service", and Aaron Fuller was elected second constable in his place. Hezekiah Martin hired Col. Philip Wheeler to serve in his place, and the town accepted Col. Wheeler to serve as fourth constable. John Bullock hired Nathaniel Paine to serve in his place, and the town accepted Paine to serve as sixth constable [*Rehoboth Town Meetings*, Book III, pp. 199, 200].

On 17 Dec. 1759 John Hunt, Town Treasurer, paid the following select men for services as assessors,—Capt. Nathaniel Bliss, £2 1s.; Capt. Timothy Walker, £1 6s. 3d.; Samuel Bullock, £2 6d.; John Cooper, £2 11s., and Silvanus Martin, £2 2s. [*Rehoboth Town Book of Accounts & Records of Rates & Orders*].

No warrant from the assessors to the Town Treasurer stating the amount of tax assessed for the year 1759 and the amount of tax to be collected by each constable is found in the town records for this year or in the records for several years before and after this date. The records seem to be loosely kept for this particular year.
